- ✓ Money belt
- ✓ Brazil travel adapter
- ✓ Travel door lock

TRAVEL TIPS

- ▶ Minor luxuries make all the difference. Pick up a pack away hammock for those long, relaxing days at the beach.
- ▶ The average temperature in Rio ranges from 20°C to 30°C, and is coolest throughout July and August. Although the climate will become hotter and more humid as you get closer to the tropics. Stay protected with a minimum sunscreen of SPF30 all year round.
- ▶ Save time and money by travelling with water purifying tablets. A life saver when there's no vendor in sight.
- ▶ Stay protected from the heat and biting insects when you wander away from the city and into the rainforest. Long sleeved, and long length trousers with built-in insect repellent technology will keep the bugs at bay when you head onto the path less travelled.
- ▶ Remember that large crowds unfortunately draw pickpockets. Only carry the bare essentials in your money belt on your way to the stadium.

Use your Brazil travel checklist and pick up the items that will help you travel safe whether you're visiting Rio or the Amazon rainforest.
